

# MKT Setup Version 8.0 Release Notes

This document describes the changes that have been performed to MKT Setup for each specific release.

## **Supported AccountMate Versions**

Determine your AccountMate version before using MKT Setup. Check our web site [www.mktsoftware.com](http://www.mktsoftware.com) to get the latest information about supported versions and product updates.

The following AccountMate versions are supported by MKT Setup:

- AccountMate LAN Version 3.X
- AccountMate LAN Version 5.01 through Version 5.09
- AccountMate LAN Version 6.50
- AccountMate SQL Version 4.X
- AccountMate SQL Version 5.Xa
- AccountMate SQL International Version 5.08i
- AccountMate SQL Version 6.01a through Version 6.08a
- AccountMate SQL Version 7.01a through Version 7.06a
- AccountMate SQL Version 8.01

If you have a version that is not listed above do not use MKT Setup against your company data and contact our Technical Support staff at [support@tamlinsoftware.com](mailto:support@tamlinsoftware.com) or call us at 214-739-6576.

If you have any questions regarding the changes listed in this document please contact our Technical Support Department [support@tamlinsoftware.com](mailto:support@tamlinsoftware.com) or 214-739-6576.
